Emmanuel Christian Academy is a private college-preparatory school founded in 1997 and located on a 41-acre campus near Dayton, Ohio.

Dayton is a destination packed with big-city experiences, amenities, attractions and shopping wrapped in small-town charm. The local community is full of parks, rivers and bike paths.

Big city culture is available in world-class visual art and professional opera, ballet, orchestra and theater performances.

World aviation history can be explored at the Wright Brothers at Carillon Historical Park, the National Museum of the United States Air Force or the Dayton Aviation Heritage National Historical Park.

Other local attractions include the Dayton Art Museum, Cincinnati and Columbus Zoos, Cosi Science Museum, Newport Aquarium, Schuster Performing Arts venue and major league sports teams.

100%

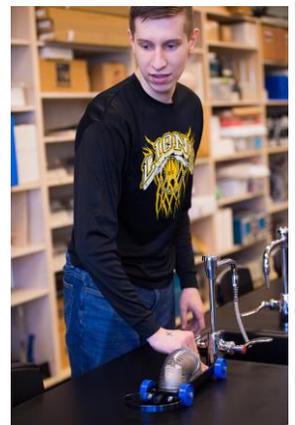

Graduation rate

A promotional banner for Emmanuel Christian Academy. On the left is the school's logo, a purple lion's head. To its right is a shield with the letters 'E' and 'C' inside. The text 'EMMANUEL CHRISTIAN ACADEMY' is written below the shield, followed by the phone number '937.390.3777' and the website 'www.ecaoh.com'. On the right side of the banner, there are four children in school uniforms. Handwritten text in red and blue says 'Academic Excellence!!' and 'Athletic Achievement Discovery'.

Vision

The vision of Emmanuel Christian Academy is to educate children from diverse socio-economic backgrounds, imparting excellence in academic standards while also developing solid moral character. The governing Board of Trustees of Emmanuel Christian Academy seeks to provide a quality education in an environment that encourages high standards for all aspects of the student's educational experience.

First school in Ohio to offer dual enrollment for
Unmanned Aviation STEM program.

Unmanned Aviation Stem Program

A College Credit Plus (CCP) program approved by the Ohio Department of Education.

High school students enrolled in the program can now earn credit towards both high school and college graduation requirements as well as industry certifications in the fast-growing UAS industry. In partnership with the Ohio Department of Education, the Turner Foundation, and Kettering Health Network, this new CCP drone program will be open for ECA students starting in the fall of 2019.

ECA is the only school in Ohio that offers dual enrollment credit for a drone program. The four-year program seeks to equip students for careers in technology and aviation.

The courses will focus on the fields of science, technology, engineering, and math (STEM) as well as providing industry certifications for immediate workforce development in the Unmanned Aerial Systems (UAS) field. The coursework will expose students to UAS navigation planning, data entry, UAS security, UAS aerial photography, principles of management, and more.
